A similar meeting has also been established the same Young Men's Christian Associa- in Dr. Clark's church (United Presbyteri-, in Allegheny city. The attendance there lready quite large, and the interest growing over the city. The days of 1857-8 seem to repeating their wonderful scenes in our lst. The great beauty of the work, as well the great virtue and glory of it, is the fact it is unsectarian. All the evangelical de-ninations seem alike engaged in it. None bigots doubt the propriety of these union rts. All true Christian people are heartily sympathy with the movement, and if this therly spirit continues, the whole city will blest.

Niagara Ship Canal.

In the Senate to-day, Mr. Chandler introduced another Niagara Ship Canal bill. It differs from the bill of last session in providing for doing the entire work by the Government, instead of by a private corporation. It has more friends than the old one, and will probably pass next winter.

Committee Rooms Little Better than Grogshops.

Mr. Wilson's prohibitory liquor resolution was referred, by 22 to 21 votes, to the Committee on Public Buildings and Grounds. After a sharp debate, in which Mr. Wilson asserted that the Committee Rooms of the Senate were often little better than grog shops.

Refused to Adjourn.

The Senate refused to adjourn over till Monday, preferring to remain in session so as to receive nominations from the President to fill vacancies occasioned by the large number of rejections of last session. This means a desire to close up business, and go home for a much longer recess than the House has provided for.

Opposed to Impeachment.

It is no longer a secret that a majority of the radicals in the Senate are bitterly opposed to the impeachment project. They denounce it in unmeasured terms, as folly and madness. One of them said to-day in private conversation that he would like to know if the Republican party is to be dragooned into such a thing by men like Logan and Butler, who are in the Republican party only on probation, and who at one time since the war, and not much over a year ago, were doing their best to revive the old Democratic party with President Johnson at its head.

The House.

The House to-day was remarkable only for a failure to revive the Joint Committee on Reconstruction, and non-success of all attempts to legislate on financial matters. An adjournment until Monday followed.

Railroad Grants.

The State Department to-day officially promulgates a law declaring that the first section of the act entitled an act to extend the time for the reversion to the United States of lands granted by Congress to aid in construction of a railroad from Amboy by Hillsdale and Lansing, to some point or or near Traverse Bay, in Michigan, and for completion of said road, approved July three, eighteen hundred and sixty-six, be, and the same is hereby amended by striking out the word "February," where it occurs in said section, and inserting the word "July" in lieu thereof.

Impeachment Investigation.

The House Judiciary Committee met to-day, organized and proceeded with the examination of witnesses on the impeachment matter. For the first time in the investigation for several weeks, the Democrats were represented on the committee, the new members, Messrs. Marshall and Eldridge being present.

The Delano-Morgan Contest.

The House Election Committee to-day took up the contested case of Delano versus Morgan. Both parties were heard, and the time for taking testimony was extended for seventy-five aysd.

Pension Agent at Columbus, O.

Jno. W. Dwyer, late Pension Agent at Columbus, Ohio, has been re-appointed by the President and confirmed by the Senate, vice E. T. Box, rejected.

The Cincinnati Appointments.

It is understood that Capt. John Sebastian will be nominated for Postmaster at Cincinnati. Dr. Menzies is being urged for the place by Senator Garrett Davis and George H. Pendleton. Bassett Langdon will be sent in no more as Assessor at Cincinnati.

Ohio Soldiers' Home.

A delegation from Columbus, Ohio, headed by General Wright is here urging Government to locate the Soldiers' Home for Ohio in that city.

Cabinet Discussion.

The Cabinet had a long session to-day on appointments and the reconstruction law. Gens. Sherman and Scofield have been agreed on for two of the Military Districts and Thomas will doubtless have the third.

Senate on Adjournment.

In the Senate caucus a motion to adjourn until November was negatived by two of a majority, 17 to 19, and the whole matter of adjournment was laid upon the table. It was tacitly agreed upon that the Senate should remain in session until the Executive business is disposed of, and especially until the appointments under the military Government bill shall have been disposed of, when the Senate will notify the House that it is ready to adjourn until October or November. Under the Bill the President is required to make the appointments within twenty days.

Senate Caucus.

Another Senatorial caucus was held this evening to determine the question of adjournment. Mr. Fessenden moved that on one week from Monday, the Senate and House agree to adjourn until the first Monday in November. A debate ensued, in which it was urged that the Senate should wait until the President had filled Military Districts of the South as required by the Reconstruction law, before any day of adjournment should be fixed. This was agreed to.

Mr. Cowan Nominated to Vienna.

The President sent to the Senate this after noon the name of ex-Senator Cowan as Minister to Austria. As Mr. Cowan was not formally rejected heretofore, but simply laid on the table, the President is not prevented by the civil tenure of office act from again sending in his name. It is thought that Mr. Cowan will now be confirmed, as the last vote on taking his name up was very close last week.

The Military Commanders.

It seems to be understood that the President this day assigned Generals Sheridan, Thomas, Sickles, Schofield and Ord to the command of the five military districts of the South, required by the new reconstruction law.

Indian Commission.

The President sent to the Senate again, to-day, the nomination of Louis V. Bogy, as Commissioner of Indian Affairs.

Virginia and Reconstruction.

A delegation of the Virginia Legislature arrived to-night to consult with members of Congress and the President as to the best means of inaugurating the Reconstruction bill.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, March 8, 1867.

The Virginia Senate has passed the bill calling a State Convention under the military reconstruction bill. There were only four votes against it out of thirty, and one of the four was Robert Ould, who used to be rebel Commissioner of Exchange. A telegram from Raleigh says that a State Convention will be called at once in North Carolina. The Legislature is in session, and will call it.

Bills Passed.

The following bills were passed:

To allow the borough of Lawrenceville to construct sewers.

Act relative to fees of Coroner in Allegheny county.

Relative to fees of certain officers in Beaver county.

To incorporate Pine Bridge Company.

Act relative to the Treasurer of Allegheny county.

To incorporate the Monongahela Inclined Plane Company.

To prevent the sales of intoxicating drinks in Economy and Independence townships, Beaver county.

Act to compel public halls and places of amusement in Philadelphia and Allegheny county to have fire-plugs and hose in front of premises during performances.

To incorporate the Co-operative Association of East Birmingham.

HOUSE.

Taxing Coal.

Immediately after the reading of the journal this morning, Mr. Waddell, of Chester, introduced a manuscript bill to tax all coal ten cents per ton. This brought the Allegheny delegation to their feet at once. Speaker Glass left the chair and took a stand on the floor of the House, when he denounced the bill as the most infamous that was ever read in the Legislature. It would paralyze the entire coal trade of the West.

Ex-Mayor Wilson then rallied to Glass' support, and opposed the bill.

Mr. Quay, of Beaver, moved to insert anthracite, and make it apply only to companies east of the mountains. Then the Luzerne and Schuylkill members stormed.

Messrs. Chadwick, Colville and McKee all moved to postpone.

Mr. Waddell spoke again in favor of the bill, and it was only by great exertion the bill was laid aside on third reading.

Pennsylvania Railroad Capital Stock.

The bill allowing the Pennsylvania Railroad Company to increase their capital stock passed after a bitter fight by 59 to 33. The only hope is now with the Governor, who it is believed will veto the bill.

The Connellsville Bill.

The morning hour expired before reaching a vote on the Connellsville Railroad Bill.

The Fee Bill.

The Fee Bill was the special order of the afternoon, Messrs. Chadwick and McKee moving to exempt Allegheny county.

Adjourned till Monday night.

The Pay of Officers of State Military Agency---An Avalanche of Bills---Act Regulating Tavern Licenses---Pay of County Officers---The General Railroad and Connellsville Railrood Bills.

Special Correspondence of Pittsburgh Commercial.

HARRISBURG, March 7, 1867.

STATE AGENCY.

The early part of the forenoon session today was consumed in a noisy and disorderly debate upon the motion to pass the Senate bill to pay the officers of the State Military Agency at Washington. The bill was passed, and the order for reports from Committees reached.

AVALANCHE OF BILLS.

Standing Committees unbosomed themselves with a vengeance, no less than 215 bills being reported nearly all as committed. About 1,100 in all have been reported during the session. I enumerate the titles of a few of them, which may be of interest to the readers of the COMMERCIAL:

An Act to facilitate the opening and repairing of roads in Sewickly township, Westmoreland county. To establish a ferry over the Monongahela and Youghiogheny rivers, and to vest the right in John McKee and his heirs. To establish and maintain a ferry over the Ohio river between Baden and Economy, in the county of Beaver. Authorizing corporations organized under the General Mining and Manufacturing laws of the State, and laws for the development of mineral lands, to reduce their capital stock, whose real estate has depreciated. Act incorporating the Armstrong County Savings Bank. Further, to restrict the sale of intoxicating liquors in Mercer county. To take the sense of the people of Beaver county, on the question whether intoxicating liquors may be sold in said county. Act to incorporate the McKeesport Gas Company. Act in relation to the pay of Supervisors in Butler county. Act authorizing a ferry over Monongahela river in township of Allenport, Washington county. Act relative to the Coroner of Washington county. Act for the promotion of medical science, and to prevent the traffic in human bodies in the city of Philadelphia and Allegheny county. This act proposes to hand over to medical colleges the bodies of deceased persons supported at public expense. Act to prevent fraudulent voting of stock in oil and other mining companies. This act provides that the person voting stock by proxy, under power of attorney, shall show that the person represented is the bona fide owner of it.

REGULATING LICENSES.

The afternoon session was consumed in the discussion, in committee of the whole, of public bills, and principally on bill No. 316, "An act further to regulate the granting of licenses in hotels and eating houses." The act is comparatively brief, only five short sections. The Democratic side opposed the bill in a body, and not less than twenty amendments were offered, a few by friends of the bill, which were adopted, but the greater number, coming from the Democratic side, were voted down. Section 1 provides that when an application is made to the Quarter Sessions for a license, the Court may hear petitions for and against, and exercise a discretionary power to grant or refuse the application as it may deem proper. By section 2, applications for license to keep an eating house, authorizing the sale of domestic wines, malt and brewed liquors, shall hereafter be made in the same manner as applications for a tavern license, provided that the clause in relation to bed rooms and beds shall not apply. No license under the act to be granted in any incorporate city for a less sum than $50, nor for less than $20 elsewhere. The penalty for selling wines, malt or brewed liquors, without a license is not less than $50 nor more than $200, and for the second offense not less than $100 and imprisonment not less than thirty nor more than ninety days. The act not to apply to Philadelphia or Allegheny county, nor to counties where the courts are now forbidden by law to grant licenses. The bill was passed in the House by ayes, 60; nays, 24.

TAXING MARKET COMPANIES.

The balance of the afternoon session was devoted to discussing bill 341, which provides that after the passage of the act all market companies whose capital is wholly invested in real estate and pay a tax upon such real estate shall be exempt from the payment of tax upon their capital stock. The debate showed that this bill was intended for the benefit and profit of the Philadelphia market companies. Bill not passed.

RELATING TO MONEY TENDERED AFTER SUIT.

Senate bill 97, authorizing a tender of money after suit brought in actions founded on contract at any time before trial, and if plaintiff fail to recover more than the amount tendered, then such plaintiff shall pay all subsequent costs, was next put before the Committee of the Whole, and passed.

ALLEGHENY VALLEY RAILROAD.

An act was then passed under a suspension of the rules, to authorize the Allegheny Valley Railroad to mortgage its road and branches for the purpose of borrowing money.

PAY OF COUNTY OFFICERS.

A session will be held on Friday afternoon for the special and exclusive purpose of considering House bill 506, "An act to ascertain and appoint the fees to be received by the several officers of this Commonwealth." This bill is quite lengthy, and proposes a revision of the whole fee bill in relation to the office of sheriff and prothonotary, jurors, clerks of the Orphans' Courts, register of wills, recorder of deeds, constables, &c.

THE GENERAL RAILROAD LAW.

Next week the General Railroad bill, which passed the Senate to-day with only four negative votes, and the McConnellsville bill, will come into the House—the general law possibly to-morrow forenoon. Many Senators voted for the general law on the principle of taking half a loaf rather than have no bread. It concedes the principle of free railroads, and as Senator White, of Indiana, remarked in debate to-day, time which cures all evils, will doubtless enable the friends of free legislation in this matter to remove many of the offensive features of the bill.

THE CONNELLSVILLE RAILROAD.

An officer of the Connellsvlle road, who is here attending to its interests, informs me that a nice little House "ring" of twenty at $700 per head, "felt" him not long since, but he couldn't see it. He feels confident of fifty-eight votes out of the one hundred members, that being the number, who from location or pledge, should go for the bill. An affirmative vote in the House will be useful for future action, but of no use for the present session.

LONDON, March 7, Evening.—Dispatches received during the day from Dublin and Cork give the following particulars of the last outbreak in Ireland: A fight took place on Tuesday night at Talaght, about eight miles south of Dublin, between armed police and a large body of Fenians. One of the latter was killed and five were wounded. The police captured eighty prisoners and six loads of ammunition, and up to dark to-day over two hundred prisoners have been brought into Dublin. The main body of the Fenians engaged in the fight retreated to the hills north of Dublin, with Lord Strathnairn, Commander of the British forces in Ireland, in vigorous pursuit.

As republicans, they appeal to republicans throughout the world for sympathy and support.

Suffering Among Refugees.

DUBLIN, March 8.—A heavy storm prevailed in this vicinity night before last. Large quantities of snow fell, and it is said the insurgents who took refuge in the mountains are suffering severely from cold and exposure. Donohue, the leader of the Fenians at the fight at Tallaght, has since died, and three of his companions are also dead. A public constable has been killed by Fenians in Cork. The rails on the roads running into Waterford were torn up. Several of the former were killed, eighteen prisoners taken, and a quantity of arms captured. The Fenians strip private houses of all guns and other weapons. Incendiary fires are frequent in the city and county of Limerick.

LONDON, March 8, Evening.—The Irish correspondent of the London *Times* says Ireland is full of Irish Americans, and urges severe punishment in their cases as imperatively necessary, and he adds that it is very difficult to apprehend them, for the people, though they give them no aid, refuse to betray them to the authorities. Colonel Dunn led the Irish in the attack on the station at Killmallock.

Adopted—Yeas 35, nays 2, viz.: Grimes and Tipton.

Mr. DAVIS, from the Committee on Elections, reported a resolution extending the time for taking testimony in the contested election cases of Delano and Morgan, Thirteenth Congressional District of Ohio, and Stewart and Phelps, Third District of Maayland, the former seventy-five and the latter sixty days, which was adopted.

Mr. WOOD asked leave to offer the following:

Resolved, That this House extend its sympathy to the people of Ireland in their present struggle for constitutional liberty. If the despotic governments of Europe shall be allowed to establish monarchical institutions in America, so should the United States foster and promote the extension of republican institutions in Europe.

Mr. BROOMALL objected, and there being already pending since yesterday a motion to suspend the rules, Mr. Wood was prevented from making a similar motion.

The motion to suspend the rules made yesterday by Mr. PRICE, to enable him to introduce a joint resolution to apply surplus funds in the treasury over seventy millions to the redemption of compound interest notes, came up. The vote stood yeas 66, nays 36; two-thirds not voting in the affirmative, the rules were not suspended.

On motion of Mr. FARNSWORTH, it was ordered that when the House adjourn to-day, tt adjourn to meet on Monday.

Senate joint resolution appropriating $50,000 additional to enable the people of the United States to participate in the advantages of the Paris Exposition, was passed.

Mr. BUTLER introduced a joint resolution recalling the facts of the confiscation by the Confederates of debts due by Southern States to loyal citizens, of the payment of over half a million dollars proceeding from such confiscation to the Citizens' Bank of New Orleans; the seizure by the General Commanding the United States Army, Department of the Gulf, of the balance remaining of that fund, $219,090, and the payment of that amount into the Treasury; providing for a commission to hear and determine claims of Northern creditors to shares of that sum, and distribute the same rateably.

After some discussion, in which Mr. BUTLER stated the measure had the entire approval of the Secretary, and accepted an amendment suggested by Mr. Raum, that the expense of commission shall be paid out of this fund, the joint resolution passed.

Mr. WILSON, of Iowa, as Chairman of the Judiciary Committee, offered a resolution calling on the Secretary of War to furnish information relative to property seized or taken possession of by Government or its agents in Louisiana; also papers in the case of Kenner & Rochorie. Adopted.

Mr. HOOPER objected. Leave was given to have it printed.

Mr. COBB presented a joint resolution of the Wisconsin Legislature, asking that an appropriation be made in aid of the construction of the Northern Pacific Railroad.

Mr. WOOD moved to suspend the rules that he might introduce his joint resolution expressing sympathy for the people of Ireland. The rules were suspended, 103 yeas to 13 nays, and the joint resolution introduced.

Mr. WOOD moved the previous question, which was not seconded, 33 against 86.

Mr. BANKS moved to refer the resolution to the Committee on Foreign Affairs when appointed. Mr. BANKS remarked that the naked expression of sympathy for Ireland amounted to very little. There was not a member of the House who did not entertain that sentiment as strongly as the gentleman from New York, but the resolution was coupled with other questions affecting the interests of the country which should be considered by the Committee on Foreign Affairs. He should ask the House to immediately order the appointing of that committee by the Speaker.

The question on referring the resolution resulted, yeas 98, nays 39.

Mr. BANKS offered the following resolution:

Resolved, That in view of events transpiring on the northern frontier of the United States, it is expedient that the Standing Committee on Foreign Affairs shall be now appointed by the Speaker for the purpose of considering foreign relations.

After the transaction of some unimportant business, the House adjourned till Monday.

FROM ST. LOUIS.

Special Session of Montana Legislature ---Personal Altercation---Indians Assuming a Hostile Attitude.

ST. LOUIS, March 8.—Montana papers say Acting Gov. Meagher called an extra session of the Legislature to provide for the election of a delegate to Congress.

A personal altercation between Geo. Moore, of Ohio, and Prof. Hodge and his son, of New York, occurred at Orofina Gulch, and resulted in the death of the former and very severe wounding of the two latter.

Denver papers say the Indians are assuming a hostile attitude in the neighborhood of Fort Dodge, on the Arkansas river.

New Mexican advices say Indian hostilities have taken a new start in the southern part of the Territory, and the militia has been ordered under arms.

Weather damp and raw.

ST. LOUIS, March 8.—The Lower House Legislature passed by a vote of 116 to 3 the bill to restore the State credit by the payment of interest on State bonds. The bill appropriates six hundred thousand dollars out of the State Treasury to pay interest falling due July, 1867, and levies a tax of four mills on the dollar, to meet the annually accruing interest thereafter. It also appropriates $4,000,000 of the sum due the State by the Federal Government for payment of over due coupons in the order which they matured on the 1st of June, 1861, as fast as said money is received from the Government. The remaining over due coupons, estimated at two and a half millions, will be taken up and new State six per cent. bonds bearing date January 1, 1868, issued for them. The National Bank of Commerce of New York is made the agent of the State for the transaction of this business. The Senate has made the bill the special order for Monday next.

THE GOLD BILL.

A Washington special says Price's resolution will be passed next week. If passed, it will compel a sale of thirty millions of coin. In the Senate there is an indisposition to touch the financial question at this time. Certain members will push next week a resolution to allow fifty per cent. of tariff duties to be paid in currency.

FROM IRELAND.

THE FENIAN UPRISING.

The Beginning and Ending of the Rebellion.

Special Report.

A special correspondent of the New York *Herald* furnishes a connected account of the late unsuccessful uprising in Ireland—the only one yet published.

It appears that the council who have lately arrived from New York, and taken the direction of Fenian affairs here, decided that there should be a simultaneous rising in England and Ireland; the object of the former being to collect the men from Leeds, Manchester, Liverpool, Preston and other manufacturing towns, to attack Chester Castle, in which a large store of arms and ammunition was known to be kept, only guarded by fourteen men, and then take possession of a steamboat and make for Dublin. In this city a demonstration was to be made to distract the attention of the authorities while the great body of Fenians took possession of the southern towns, and erected fortifications. Had the Fenians succeeded in Chester their plans might have gone on successfully, but the information given by one of their officers enabled the Government to have the Guards and volunteers to receive them there and frustrate that part of the programme, and the telegraph prepared the Irish authorities for the reception of those who persevered in crossing the channel. All the ports to which the steamers ply from England were closely watched. Some arrests were made in Belfast and Drogheda, but whole ship loads have been taken as they came into Dublin. On Wednesday sixty-seven were arrested on the in-coming steamer from Holyhead. The following day thirty-seven were seized, and this morning sixteen more were apprehended under similar circumstances.

The parties in the South, ignorant of the failure of the Chester and Dublin business, rose according to agreement. The command was assumed by General O'Connor, who has been residing in the neighborhood of Cahirciveen for some weeks. By his directions the roads were taken possession of by bands of armed Fenians, the telegraph wires to Valentia, and also those to Tralee were cut, and thus all communication from the district was stopped. Having secured Cahirciveen as a base for operations, O'Connor dispatched his colleague, Capt. Moriarty, with full instructions to the Head Center, in Killarney. The evening that Moriarty was to arrive in Killarney an anonymous letter was brought by a little barefooted girl to Mr. Galway, the agent of Lord Castlerosse, informing him that Captain Moriarty, a Fenian agent, was coming by Bianconi's car from Cahirciveen. The letter stated that the man would be known as having a broken nose—(Moriarty had his nose injured in the late American war). The car was met by the police four miles outside the town, and the Captain arrested. The papers found on him created an immensity of alarm, asserting that he was to give the signal, that the bank was to be the first place sacked, and then Lord Castlerosse's mansion.

The news spread with rapidity, and in a few hours the whole country was up to fever heat of excitement. The gentry poured into the town with their families and valuables, the Railway Hotel way taken possession of by them, and a guard of constabulary placed around. A meeting of magistrates was at once called, who telegraphed to Dublin and Cork requesting immediate supplies of troops.

As soon as O'Connor heard of the fate of his messenger, he massed the Fenians and marched towards Killarney, with the object of rescuing him. On their way they attacked each police station they came to, and took whatever arms and ammunition could be found, but did no injury to the men. They were joined by several bands along the road, so that their numbers reached seven hundred in a few hours. At Kells, a small hamlet four miles from Skibbereen, they sacked the coast guard station, took all arms and objects likely to be useful in their march. The magistrates, sitting in solemn council at Killarney, hearing of the advance of this formidable body, and no troops yet arrived, dispatched a mounted orderly to Killorglin, a small town some miles distant, to collect the constabularly. Another mounted messenger was dispatched from Lillorglin from Cahirciveen but on the road he was met by a party of the advancing Fenians, among whom it is asserted was the general. The man was desired to hand over his dispatches, but refused, and was immediately shot by one of the crowd. The dispatches were taken, as also his horse and arms, and the unfortunate man left weltering in blood by the road-side. He was subsequently assisted by a priest.

Before the Fenian force could reach Killarney, troops arrived from Cork, and not being fully armed, nor meeting the reinforcements expected from Dublin, they turned aside from Killarney towards Kenmare. Several hundred troops arrived from Dublin in a few hours afterwards, and then pursuit was commenced. Cars were collected to convey the troops in the direction of Kenmare, but without leading to any collision or mutiny.

The Fenians were well guided, and, although the greatest efforts were made to overtake them, all were unsuccessful. They passed in force through the gap of Dunlo, dispersed over the Toomies Mountain, and thus eluded the military. Several hundred troops surrounded Toomies wood last night under the direction of Mr. Herbert and other residents, and, although they knew that a party of the Fenians was concealed there, they could not catch a single man. Several times during the night the sentries heard the Fenians conversing; but, as it was dark, it was deemed advisable not to pursue them till daylight.

The Toomies Mountain overlooks the Lower Lake, and it is likely they will escape by boats, which the people about will readily supply if not too closely watched by the soldiers. On Thursday night upwards of fifteen hundred soldiers, composed of infantry and artillery, were concentrated at Mallow, a point which commands the whole south of Ireland, from which troops could be poured at a very short notice to any district necessary. They are under command of Brigadier General Hosford.

The Tariff on Woolens---Its Probable Effect.

A leading manufacturer and dealer in Philadelphia, in a private letter, expresses the following views:

"Trade here is looking up, particularly in woolen goods. A firmer feeling is manifest for seasonable fabrics. The wool tariff only effects woolen goods and wool. The benefit that will accrue from this will not be felt before next fall; at least the manufacturers will receive none of its benefits until then. All the Foreign goods, for Spring and Summer, are already on the market. The Fall importations commence about May for the early clothing trade—hence, you will perceive at a glance the importers have been checkmated by this bill. Had action been delayed until the Fortieth Congress, the benefits would not have been felt this year at all. Had they expected this action, the importers would have sent their orders out by telegraph, and got the goods here in about two weeks. The action of the Senate in taking up the House bill after all hopes for a tariff had been lost, fell like a thunderbolt in the ranks of the importers. Judge Kelly succeeded in having put on the free list all fabrics the production of hand looms, which relieves the carpet manufacturers of this section, they alone being made by hand looms. There is no carpet made in Philadelphia on any other looms."

The Antiquity of Yankee Doodle.

Mr. Bryant, in one of his letters to the New York *Evening Post* from Spain, relates the following incident about our national air of Yankee Doodle, which gives to that much and deservedly abused musical doggerel an unexpected antiquity. He says: I have mentioned the Basques, and I have an incident to relate which connect them, curiously enough, with our own country. Some time since, when Mr. Perry, Secretary of the American Legation at Madrid, was in one of the Basque provinces, he heard a band playing one of their national airs. The Basques have preserved whatever is peculiar to them, their language, their customs, and many of their political rights, from the earliest period in which they are known to history; their national music is claimed to be of the same antiquity. After the band had played several other airs it struck up Yankee Doodle, the very tune, in every note, which is so familiar to American ears. Mr. Perry immediately claimed it as our national air. "It is one of our old tunes," said a gentleman to whom he spoke, "and I can convince you of the fact. For hundreds of years it has been a popular air among us." The gentleman afterwards made good his assertion by showing Mr. Perry a manuscript of great antiquity which contained the identical musical notes of "Yankee Doodle."

Bishop Soule's Death.

Joshua Soule, D. D., senior Bishop of the Methodist Episcopal Church, South, died at Nashville, Tenn., on the 6th. He was a native of Maine, and was born in Bristol, in 1781; was licensed in 1798, ordained elder in 1802, made Presiding Elder of the State in 1864. In 1844, when a majority of the Conference at New York desired to depose Bishop Andrew, because he had connected himself with slavery by marriage, Bishop Soule opposed his deposition. The case, it will be remembered, was the opening wedge of the division of the church. Bishop Soule, who then lived in Ohio, removed to Nashville, and has since been one of the most influential of those divines who sided with the pro-slavery views which led to the disruption. In 1853-4 he made an episcopal tour in California, but he has not been actively employed for several years.

WE see it stated that notices were posted in all the leading woollen manufactories of Rhode Island on Saturday, that the wages of the operatives would be reduced ten per cent. on the 14th inst. Hardly half of the woolen machinery in the State is now running. The tariff bill just passed may temporarily make business a little more lively for a while in this branch, but it is nevertheless clear that this is no time anywhere in the country for workmen to demand an increase of wages or a diminution in the hours of labor.

THE citizens of Mt. Gilead, Ohio, are taking measures to have a branch of the Cleveland and Pittsburgh Railroad built to that place—a distance of two miles.

SECOND EDITION.

4 O'CLOCK, A. M.

WASHINGTON.

Report of Lieut. General Sherman.

LIST OF CONFIRMATIONS AND REJECTIONS.

Regulations for Bonded Warehouses

Number of Destitute in the South.

WASHINGTON, March 8.

EXECUTION OF THE MILITARY BILL.

The President and Cabinet are busily engaged in the necessary preparation for the execution of the military government bill.

NOMINATIONS.

The President sent to the Senate a number of nominations for various offices. Many of those which remained unacted on when the last Congress closed, have been again communicated for confirmation. As there are at least five hundred vacancies, the rush of office seekers is very spirited.

SALE OF PUBLIC LANDS.

The Commissioner of the General Land office has instructed district land officers at Menaska, Wis., to proceed to Green Bay on the 1st of May, and offer at public auction to the highest bidder, for cash, vacant lots, seventy-two in number, in the late Fort Howard reserve. No minimum price is affixed to the lots, but they are to be sold subject to the approval of the Secretary of the Interior. The Commissioner has just approved 12,117 acres of land to the State of Minnesota for school indemnity lands.

DESTITUTION IN THE SOUTH.

The statement of General Howard, Commissioner of the Freedmen's Bureau, transmitted to the Senate by the Secretary of War, states 32,622 whites and 24,238 colored people in the South will need food from some source before the next crop can relieve them. The number of rations required for one month is 1,070,000; for five months, the probable time required, 8,535,000. At 25 cents per ration the estimated cost will be $2,133,750. Of this $625,000 has already been appropriated, leaving $1,508,750 to be provided. The destitute are apportioned as follows: Virginia, 2,500 whites, 2,500 blacks; North Carolina, 3,000 whites, 2,000 blacks; South Carolina, 5,000 whites, 5,000 blacks; Alabama, 10,000 whites, 5,000 blacks; Florida, 5,000 whites, 1,000 blacks; Georgia, 7,500 whites, 500 blacks; Tennessee, 1,000 whites, 1,000 blacks; Mississippi, 1,862 whites, 2,038 blacks; Arkansas, 1,000 whites, 500 blacks; Louisiana, 300 whites, 200 blacks.

Since the report was drawn up, a statement has been received from the Assistant Commissioner and Governor of Georgia, greatly exceeding the above amount, but a large appropriation is not recommended for Georgia before another estimate shall be made, based on a thorough inspection.

GEN. SHERMAN'S REPORT.

The Secretary of War transmitted to the Senate a copy of Gen. Sherman's report on the subject of protection to trains on the overland route, with copies of general orders issued by General Pope last year for the regulation of travel across the plains. He says this order, with some modification, will be enforced the present year; that under them a vast amount of merchandise and a great number of people last year passed safely to their destination. For the year 1867, he proposed to apply the general rules laid down by Pope to the four principal routes, first from Minnesota to Montana, via Forts Abercrombie, Woodworth, Rice, Berthold, Buford and Judith and Sun river with two new Stations between Wadsworth and Rice; second, the Great Platte route, by which full ninety per centum of the travel to Montana, Utah, California, and Colorado have hitherto gone; increased protection will be given to the shorter line to Virginia City from Laramie, via Forts Reno, Phillip Kearney, and Fort Smith. Third, the Smoky Hill to Colorado, via Forts Riley, Hooker, Hayes, and Wallace, thence to Denver City. Fourth, the Arkansas route, from Kansas and Arkansas, via Forts Serre, Larned, Dodge, Lyon, the Pairgatric, &c., to Fort Union and New Mexico. He also proposes to leave the post commanders a little more latitude of judgment as to strength of trains passing out, as cost and delay have sometimes resulted from holding trains, till the requisite number has accumulated. The order referred to required a military organization of all trains, to number not less then thirty men and twenty wagons. All travelers are held to strict responsibility for the faithful observance of regulations laid down, and treaties with Indian tribes through whose country they are passing.

APPOINTMENT.

John J. Knox, of the Treasury Department, has been appointed Deputy Comptroller of the Currency, in place of H. R. Hulburd, recently commissioned by the President Comptroller of the Currency.

CONFIRMATIONS.

The Senate confirmed J. M. Hendricks, Postmaster at Ottumwa, Iowa; Clarke Dunham, Burlington, Iowa; J. Q. Monk, Waterton, Wisconsin; Thomas Moonlight, Collector of Internal Revenue, Kansas; James Armstrong, Second District, Iowa; Gillet V. Stevenson, Fourth District, Indiana; W. W. Wilson, Sixth District, Ohio. Assessors of Internal Revenue—Charles A. Harrington, Nineteenth Ohio; Jos. Bowman, First Indiana; Elias Wright, Eleventh District Ohio; G. J. Bergen, Fifth District Illinois; Wm. B. Elliot, Third District Pennsylvania.

REJECTIONS.

The Senate rejected the following nominations: Postmasters—Chas. A. Weisbro, Oshkosh, Wis.; Warren Barnhard, Independence, Iowa. Assessors of Internal Revenue—J. W. Matthews, Fourth District, Ohio.

REGULATIONS FOR BONDED WAREHOUSES.

The revised bonded warehouse regulations require goods which are to be transported in bond to be transferred from warehouse to the place of shipment under the supervision of an officer, and require an officer to accompany spirits from the warehouse to the place of redistillation or rectification. The time for completing the transportation is reduced to thirty days, and for producing proof of delivery to fifteen days. The time for completing redistillation or rectification and return is reduced to ten day. In all cases the application for withdrawal for rectification must be made by a duly taxed rectifier, who must also be a party to the bond.

BONDS OF INTERNAL REVENUE OFFICERS.

The new internal revenue law requires all inspectors to give bonds in the sum of $5,000. Any inspector except those west of the Mississippi who does not file a satisfactory bond with the Commissioner by April 1, will be deemed to have vacated the office.

ADJOURNMENT.

According to present indications, Congress will adjournn in about a week hence until October.

FIRE.

A fire to-night destroyed the building on the southeast corner of Pennsylvania Avenue and Sixth street. The upper portion was formerly occupied as the Central Hotel. The lower stories were the auction rooms of Lully & Bro., office of the Aquia Creek Railroad, and basement as a restaurant. The house was worth probably ten or twelve thousand dollars, on which there is insurance. Six or seven persons, it is supposed, were killed by the falling walls, some of them being engaged at the time in removing the furniture from the adjoining house. Two dead bodies have already been discovered, one of them, that of Mr. Murlehass, agent of the Germania Insurance Company. Digging and removal of the ruins is going on at midnight, to recover other persons missing. It is supposed the fire was the work of an incendiary.

FLOOD IN VIRGINIA.

Houses, Barns, Fences and Bridges Washed Away.

MARION, VA., March 8.—The whole Virginia and Tennessee Valley has been visited with the heaviest freshet within the memory of the oldest inhabitant. The whole valley, from Lynchburg to Chattanooga, is swept by swollen streams. It rained incessantly three days from the 2d inst., which, with the melting snow from the mountains, overflowed all the streams. The Virginia and Tennessee Railroad is badly damaged. Trains are all blockaded at this point, bridges swept away and deep cuts filled with rocks and dirt. Two bridges on the East Tennessee and Virginia Railroad at Limestone Creek and another point nearer Knoxville, are gone, and the road is otherwise badly injured. It will be four or five days before all trains run regularly. The country is badly damaged, fences, houses and barns being washed away. The weather is now clear and the streams are falling.

The Daily Commercial

SATURDAY, MARCH 9, 1867.

THE proceedings of the Pittsburgh Methodist Conference will be found on the third page.

DURING the existence of the Thirty-Ninth Congress, the President vetoed ten bills and pocketed one. Six were passed over the veto, four vetoes were sustained, and four bills became laws without the President's signature.

GENERALS SHERMAN, MEADE, HANCOCK, McDOWELL and SCHOFIELD, before the war all pronounced Democrats in their political feelings and associations, but men of education, ability and experience, are named as likely to be selected as military commanders for the South. The selection of these officers would remove all apprehensions from the minds of the Southern people of the infusion of extra Radicalism into the administration of the Reconstruction Law.

WHAT reasons demand the introduction into Congress of so many new Reconstruction Propositions and Constitutional Amendments, *after* one that promises to be effective has been deliberately adopted, we confess inability to imagine. It would not be difficult, though it might not be charitable, to indulge a conjecture as to the motives which might influence members, to covet some conspicuous association of their names and abilities with a subject of such widespread interest. Of course, better measures should always be preferred to worse. But there is a proper season for their introduction. And those who have been too slow in maturing and shaping their propositions, can hardly expect them to supercede or essentially modify those which have been previously adopted, with the same design.

THE BOGUS FREE RAILROAD LAW

While we are not disappointed at the passage of the bogus Free Railroad Law through the Senate, we are disappointed that so many Senators who opposed it as it came from the hands of the Pennsylvania Railroad Company, should have voted for it on the ground it was the best they could get. We give them credit of knowing that while it may be entirely true that better could not be obtained, worse there could not well be. We conceive it was their duty to oppose the bill, even though unsuccessfully, to the end, as a bill designed to prevent and not facilitate the building of Railroads in Pennsylvania. We understand it was so denounced very generally by them; and on what principle, as sincere friends of the Free System, they could vote for the bill, it is extremely difficult to perceive. Such a course may not be additional proof of the power of the Monopoly, but it certainly looks very much like it. It would have passed without their vote and why they should have added them as so much extra, is one of the marvels of Harrisburg Legislation.

In spite of this vote—in spite of the lame excuse—this fact remains: the Republican party, clothed with the responsibility, and the Democratic party, seeking to obtain it, pledged themselves to the people to give them a true Free Railroad Law, which should emancipate the State from the power of an overshadowing Monopoly. Instead of passing such law, they took the bill framed in fulfillment of the promise, to the managers of the Monopoly, by whom its character was totally changed, and the Senate has passed it. It may or may not be a significant fact in this connection, but it is a fact that the principal manager of the Monopoly was in Harrisburg at the time the vote was taken.

The vote on the passage of the bill in the Senate was as follows:

AYES—Messrs. Billingfelt, Brown (Mercer,) Burnett, Coleman, Connell, Cowles, Davis, Donovan, Glatz, Haines, Jackson, James, Landon, McCandless, McConaughy, Randall, Ridgway, Royer, Schall, Shoemaker, Stutzman, Taylor, Wallace, Walls, White, Worthington and Hall, Speaker.

NAYS—Messrs. Bigham and Graham, of Allegheny, Lowry, of Erie, and Brown, of Lawrence.

ABSENT—Messrs. Fisher and Searight.

Speaker HALL, of course, voted for the bill, although only a week ago he said it would be useless to expect railroads would be built under it. Under his leadership, the Pennsylvania Railway Company have effectually triumphed over the people again. He is one of the Solicitors for the Company, and has made some progress in the art of looking one way while rowing another, although he is by no means an expert at it.

Senators BIGHAM, GRAHAM, LOWRY and BROWN, will be held in grateful remembrance for their faithfulness to principle, and the welfare of the State. Their ranks, though few in number now, will grow to be a vast majority.

GENERAL BUTLER'S PLAN OF IMPEACHMENT.

In WILKES'S *Spirit of the Times*, for this week, we have what, from the known relations of the writer—Mr. GEORGE WILKES—and General BUTLER, no doubt may be regarded as the central idea of the General's plan for disposing of President JOHNSON by proceedings looking to impeachment. It is suggested by Mr. WILKES that the Judiciary Committee, who, he does not doubt, "would have no difficulty in reporting affirmatively" on points looking to impeachment, should do so "forthwith," "and thus," says the writer, "the "Committee, by this simple process, would "acquit itself of its responsibilities, and "transfer the sword of DAMOCLES to the "hands of the Senate. An indictment, "embracing the above charges, and re-"ferring to the proofs, by title, as of being "by record, would be very easily drawn. "All the responsibilities which would fol-"low would then devolve upon the Senate. "They could try the President when they "please, or they can hold the ordeal *in* "*terrorem* as long as they please."

This plan had at least the merit of expeditiousness; but it did not commend itself to the Republican Members of Congress, and so it didn't work. Nor did the proposition of a Select Committee, with General BUTLER at the head, commend itself to them; therefore the Judiciary Committee was continued in charge of the question of impeachment. It would seem, from these proceedings, that Congress is not likely to make a forced march on the subject.

A PROPOSITION TO TAX COAL.

The bill offered in the House yesterday, by Mr. WADDELL, Chairman of the Committee of Ways and Means, imposing a tax of ten cents a ton on all coal mined in the State, is certainly an extraordinary one. We have been assured by the financial officers of the State of the easy and gratifying condition of our finances. Therefore the necessity for the extraordinary tax does not lie in that quarter. What purpose is at the bottom of the extraordinary proposition no rational conjecture can be formed. The bill, it seems, came near passing the House—a set thing—reminding one of the way the Pennsylvania Railroad Company accomplishes its objects. It clearly becomes those most deeply interested in the coal trade to take steps to protect themselves from this sudden raid on them—not only them, but in the great body of the people, as well as the large consumers of coal,

THERE is still considerable disorder in Kentucky, amounting in some counties almost to a guerrilla, bushwhacking or bandit warfare on Union people. A message of the Governor, on the subject, some time since, represented it as requiring legal notice and suppression. The politics of that unfortunate State, too, have assumed a wild and reckless character—we mean, of course, the Democratic politics. There is also a political agitation kept up by some of those ecclesiastical partisans of the rebellion, whose fears kept them reputably silent, or at a safe distance from the country, while the war was going on. All these causes combined, and logically connected as they are, make some localities in that State very uncomfortable for Union men. But it is hoped that these things will have the happy effect of uniting all elements of good citizenship into one determined Republican organization, that shall regenerate that whole Commonwealth.

RAMPANT RITUALISM.—Some of the Episcopal clergy of New York are carrying the ritualistic ceremonial, revived by Dr. Pusey and Professor Newman, in the English Church, a little too far. Even the "Broads" as well as the "Evangelicals" are taking the alarm. The curate of St. Albans, for instance, celebrates Lent by robing his chancel in black, announcing a midnight service and the chanting of a hymn, rehearsals whereof forcibly remind those who have heard them, of the *Tenebræ*. This is so near an approach to Rome that it would trouble a casuist to tell how many steps further it would be necessary te go to outstep the dividing line.

THE RIGHT NAME.—The matter is not very important, yet it is as well, even in trifles, to be correct. Now the Chicago *Republican*, in speaking of the Prussian royal family, calls them the "house of Brandenburg." This is a mistake. Frederick the First, who elevated the electorate of Brandenburg into a kingdom, and all his descendants to this day are of the "house of Hohenzollern." Brandenburg was only the name of the territorial nucleus of what Frederick the Second—better known as Frederick the Great—and Bismarck have made an empire.

DID HE MEAN IT?—The New York correspondent of the Philadelphia *Ledger*, referring to the commencement of Max Maretzek's operatic enterprise at the Academy of Music during Lent, remarks that even fashion formerly deferred to the obligations of that solemn season; but that, "in these fast days, deference is the exception and not the general rule." Did the writer deliberately mean to desecrate the pages of the staid old journal on which he is employed by making it unconsciously publish an atrocious pun on the word "fast;" or was it, on his part, a brilliant intentionality?

"SI E MUEVO!"—Spite of A. Johnson, of Bourbonized Democracy, of ex-rebel contumacy and reconstructed obstructionism, the world does move. Even in Kentucky—aspirant to rivalry with South Carolina in the matter of political heresy—there are evidences of mundane revolution that cannot be mistaken or ignored. Thus, for instance, there has just been established at Maysville a loyal weekly paper called *The Republican*; while, for another and still more striking example, we yesterday saw the first issue of *The Colored Kentuckian*, a genuine organ of the freedmen, edited by the Rev. Dr. Butler, J. P. Samson and P. H. Murray, all of whom are of mingled African and Caucasian descent.

A FRUITFUL TOPIC.—A person named Preserved Gage sued Miss Lucy Rushton—the lovely and accomplished famale, but by no means brilliant manageress, who turned Dr. Osgood's Church into the "New York Theater"—for cash due on work and labor done. He got a verdict, and that is about all he will get. He must have been a green-Gage—we don't know how well "preserved"—to have ever trusted her at all.

SUDDEN COLLAPSE.—The partnership between the Blair faction and the Claybank crowd in Missouri has been dissolved. It was not the Claybanks that caved in, but the Blairs that were blown off as a useless incumbrance. It was discovered that they were all "blare"—sound and fury, signifiying nothing.

GOING FOR GOLD.—The Legislature of Kentucky, for the sake of showing the estimation in which it holds our national currency, has passed an act requiring that members of the State General Assembly be paid in gold.

HON. JOHN A. BINGHAM having observed that his name was used in connection with the Governorship of Ohio, writtes the Steubenville *Herald*: "Although a nomination for that high position, by a Union Convention, would be an honor of which any man might be proud, I deem it but just to say, that I have not authorized my name to be used in that connection, neither do I desire to be considered a candidate for the position under any circumstances."

THE SEAT OF EMPIRE.—The Washington correspondent of the New York *Commercial Advertiser* records a fact in this way: The Western members of the present House have organized it, discarding Mr. Goodenow, of New York, the the doorkeeper for some years past, to put in an Illinoisian. A few years more, and New England will be effectually snubbed by the States which were founded by Yankees, and which have been built up by Yankee capital.

A NEW IDEA IN PARIS FASHIONS.—A new color called amaranthe is worn for carriage full dress. It looks remarkably well under gaslight in velvet over white satin undertrains. This is the greatest novelty, as also light fawn crape, over which blue beetles and other brilliant insects crawl among the ruddy autumn leaves. The idea among the queens of the *demi-monde* is the cuttle fish tunic "la pieuvre," of which it is probable Victor Hugo did not dream when he wrote the "Toilers of the Sea." This tunic is made of shimmering green satin, cut in numerous long stripes, to represent claws, worn on the tulle trains powdered over with silver; and the next idea is a pearl gray satin empire, under a scarlet velvet tunic trimmed with vine leaves; the latter they call "bacchanale."

Rumored that Mrs. Harriet Beecher Stowe, will shortly leave for Florida, where she will reside until May, and that the residence of the Stowe family in Hartford, Conn., is to be sold.

Pennsylvania Railroad Company.

John Hulme, Esq., has addressed a letter to the stockholders of the Pennsylvania Railroad in reference to his defeat as a director, at the late election. The essential portions are as follows: On Saturday last, I was informed for the first time, that there would be an opposition to my election. On the day of the late election it appeared that a well arranged and closely concerted scheme had been made to defeat me. Two tickets were printed—my name on one, and another name substituted for mine on the other which was similar in paper, type, and general appearance. A person was employed to stand at the front door of the building and distribute the ticket apposed to me.

How and by whom this was done, it is not my purpose to state. One thing is certain, that many persons were misled and deceived into voting against me, who supposed they were voting for me, and many others did not vote who would have done so if they had known there was to be an opposition to my election. My name was the only one omitted from the ticket of all those who constituted the old board.

I refer to the records of the company as the evidence of my fidelity to its interests. I am a large stockholder, and represent other large stockholders, and I am confident that no just man can charge me with any remissness in the discharge of my duties. Any one familiar with the facts can but infer that my defeat has been the result of a scheme, secretly and carefully pre-arranged, by persons who must have had purposes of their own to serve, or by those whose objections were not based upon the real interests of the company.

Traffic in Human Bodies.

The bill before the Legislature of Pennsylvania, to prevent the traffic in human bodies, referred to in our Harrisburg special of yesterday, provides that the officers of county prisons and almshouses and the Coroner shall give permission to any physician or surgeon of the county, upon his request, to take the bodies of such persons dying in the prison and almshouse as are to be burried at public expense, to be used within the State for the advancement of medical science. Section second provides that, before receiving any such body or bodies, a sufficient bond shall be given that they shall not be used for any other purpose but the advancement of medical science within the State. The section also forbids, under a severe penalty, the trafficking in such bodies. The third section provides that, if the deceased person before dying requested to be buried, or if any person, being of kin, claims the body for burial, or if the deceased person is a stranger or traveler, who died suddenly, his body shall be buried.

The Louisville *Courier* having spoken of the Frankfort *Commonwealth* as the "principal organ of the negro equality party in Kentucky," the latter pungently responds: "Down through the vile and corrupt passages of its villainous throat as low as to its black and traitorous heart, the Louisville *Courier*, or whoever else applies to the Union party of Kentucky the term of 'negro equality,' lies." We earnestly trust the *Commonwealth* felt better after spitting that out. It must have been worse to have in the throat than the usual manifestation of what we call the Pittsburgh *grippe*.

A brother and sister who had not met for fifty-five years, lately had a reunion dinner near New London, Butler county, Ohio. The knives and forks used on the occasion were forty-eight years old, the chairs fifty years of age; the tea-cups and saucers, plates, &c., thirty years old. The turkeys were carved with a knife forty-eight years of age; but the fowls themselves, we believe, were not correspondingly venerable.

—Senor Romero, the Mexican Minister, is about to marry Mrs. Sackett, of Washington.

—Miss Louisa Pyne is singing at the London morning popular concerts.

—Hon. Isaac E. Holmes, a prominent South Carolina politician, died in Charleston on the 26th ultimo. He served a short time in the United States Senate, succeeding Hugh S. Legare.

—Paris has been a good deal amused by a quarrel between two actresses of the Varieties Theater, M'lle Schneider and M'lle Silly. The latter carried her grievances into the newspapers, and was discharged from the company. Served her right. She shouldn't have been so silly.

—The Sultan is expected in England next summer, subsequent to his visit to Paris. If he goes to the Lokdon docks he will have a chance to enjoy more Sublime Port than he ever had in Constantinople.

—The *Courier des Etats Unis*, which is made responsible for the story, says that President Johnson has lately changed his habits, filled the library of the White House with books, especially French books, and taken to reading, and that his favorite authors are Montesquieu and Paul de Kock.

—Gen. Neal Dow, of Maine law celebrity, is said to be in very delicate health.

—Mr. Arthur J. Peabody, nephew of the eminent philanthropist and London banker, George Peabody, has purchased an interest in the publishing house of Charles Scribner & Co., and is admitted to a partnership in the same.

—The nomination of Bogy, Commissioner of Indian Affairs, was not acted upon by the Senate, at the late session. It is expected the President will renew it. Does Mr. Johnson think he can frighten the red-skin by sending a "bogy" after him?

—The golden wedding of Samuel F. Reed, of Granville, Mass., was celebrated on the 14th ult., Mr. Reed being 73 years old and his wife 72. He has four brothers and two sisters living, whose combined ages amount to 450 years, or an average of 75 years each.

—Robert Toombs, it seems, has quietly returned to Georgia, having determined to test the clemency of the Government. Alluding to his return from Cuba, the Atlanta *Opinion* caustically says: "It is difficult to divine why Mr. Toombs ever left the country. While it is true that he did more to procure secession than any other man in the State, it is likewise true that after secession was accomplished he did less than any other man to sustain the revolution he had wrought."

—Mrs. E. Oakes Smith prints a conversation between herself and Mr. Willis, which is the best apology or defense of himself that we have ever met, and from which we extract the following:

"I imagine, Mr. Willis, you have never quite done your genius justice—you have never been quite enough in earnest, pardon me, to accomplish all you are capable of doing."

"There you do me more than justice. I have really been a very diligent man, and have made the best of myself. From the first I weighed my capacity and estimated what I was able to perform; I have kept within my limits, and made the most of the field in which I am best capable of moving."

—Says the Washington correspondent of the New York *Tribune*: Mr. Blaine is metallic; you can not conceive how a shot should pierce him, for there seems no joints to his harness. He is a man who knows what the weather was yesterday morning in Dakota; what the Emperor's policy will be touching Mexico; on what day of the week the 16th of December proximo will fall; who is the Chairman of the School Committee in Kennebunk; what is the best way of managing the National debt, together with all the other interests of to-day, which anybody else would stagger under. How he does it, nobody knows. He is always in his seat. He must absorb details by assimilation at his finger ends. As I said, he is clear metal. His features are made in a mold—his attitudes are those of a bronze figure—his voice clinks, and as you know, he has ideas fixed as brass.

NEW ADVERTISEMENTS.

THE

CENTRAL

PACIFIC R. R. CO.,

Having Completed, Epuipped and put in operation nearly One Hundred Miles of their Road, from Sacramento, California, to within 12 miles of the summit of the Sierra Nevada Mountains, continue to offer for sale, through us, their

FIRST MORTGAGE BONDS.

Issued in conformity with the Acts of Congress and the laws of the State of California, upon the division of their Road located in the State of California, and extending one hundred and fifty-six miles from Sacramento City to the California State line.

The Bonds have Thirty Years to run from July 1, 1865, and are secured by a

FIRST MORTGAGE,

Constituting an absolute prior lien on the portion of Road above named, with all the Rights, Franchises, Equipments, &c., pertaining thereto.

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is *DECLARED BY ACT OF CONGRESS TO CONSTITUTE A LIEN PRIOR AND SUPERIOR TO THAT OF THE UNITED STATES GOVERNMENT.*

Interest at the rate of Six Per Cent. per Annum, payable Semi-Annually, on the first days of January and July. Principal and Interest payable in

UNITED STATES GOLD COIN.

In the city of New York. The price of the Bonds is fixed for the present at 95 per cent., and accrued interest from January 1st in Currency, the Company reserving the right to advance the price whenever it is their interest to do so.

The Road forms the Western part of the

MAIN TRUNK

OF THE

Great National Pacific Railroad,

Authorized, adopted and aided by the

United States Government.

It runs through the heart of the richest and most populous section of the State of California, connecting the

EXTENSIVE MINING REGIONS OF NEVADA, UTAH AND IDAHO,

With Sacramento and the Pacific Coast, from whence their supplies must be drawn; and the earnings of the portion already running are very heavy, *and largely in excess of the interest upon the Company's Bonds.*

Having been for some time familiar with the operations of the Central Pacific Railroad Company, we are satisfied that they are conducted with rare ability and prudence, and that the energetic and economical management of the Company's affairs entitles them to the confidence of capitalists and of the public. We have carefully investigated the progress, resources, and prospects of the Road, and have the fullest confidence in its success, and in the value and stability of the Company's securities. The attention of Trustees of Estates, Institutions, and individuals desiring a long, safe and remunerative investment, is especially invited to these First Mortgage Bonds.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

The Committee on State of the Country were, at their own request, granted a temporary leave of absence.

The Committee on Memoirs presented obituaries of James C. Taylor and C. C. Davis, which were read and, on motion, adopted.

The Committee on Memoirs desired that some member of the Conference be appointed to prepare the obituary of brother Tipton, and on motion, Joseph Horner was appointed to prepare said obituary.

EXPELLED FROM THE CHURCH.

Our worst fears in regard to the judical case of I. Aiken are realized, as we have learned that the unanimous decision of the Committee is that he be expelled from the ministry and the church. It is perhaps due to say that the offense is not one of personal violation of the laws of chastity, but rather, perhaps, the result of a monomania with reference to others joined to him by what ought to be the dearest relations of life.

The following is the decision of the Committee:

"The testimony having been closed, the Committee took up the charges and specifications separately, and on motion it was unanimously resolved that all the specifications are proved, and that the specifications do sustain the charges."

On motion Isaac Aiken was expelled from the ministry and membership of the M. E. Church.

On motion the Presiding Elder of the District, where Isaac Aiken resides, was requested to demand his parchment.

Dr. Cox, on behalf of I. Aiken, gave notice that the case would be appealed to the next General Conference.

The Stewards are now reading their report. I close for the mail. VIDEBO.

SEC. 3. The bonds of the State and certificates of indebtedness, now over due, shall be receivable in payment of the said loan, under such regulations as the Governor, Auditor General and State Treasurer may prescribe, and every bidder for the loan, now authorized to be issued, shall state in his bid whether the same is payable in cash or in the bonds, or certificates of indebtedness of the Commonwealth.

SEC. 4. That all trustees, executors, administrators, guardians, agents, treasurers, committee, or other persons, holding in fiduciary capacity, bonds or certificates of indebtedness of the State or moneys, are hereby authorized to bid for the loan hereby authorized to be issued, and to surrender the bonds or certificates of loan held by them at the time of making such bid, and to receive the bonds authorized to be issued by this act.

SEC. 5. Any person or persons standing in the fiduciary capacity stated in the fourth section of this act, who may desire to invest money in their hands for the benefit of the trust, may, without any order of court, invest the same in the bonds authorized to be issued by this act, at a rate of premium not exceeding twenty per centum.

SEC. 6. That from and after the passage of this act, all the bonds of this Commonwealth shall be paid off in the order of their maturity.

SEC. 7. That all loans of this Commonwealth, not yet due, shall be exempt from State, municipal or local taxation, after the interest due February first, one thousand eight hundred and sixty-seven, shall have been paid.

PROPOSALS.

PROPOSALS. — PENNSYLVANIA AGRICULTURAL LAND SCRIP FOR SALE.—The Board of Commissioners now offer for sale 520,000 acres of Agricultural College Land Scrip, being the balance of the Scrip granted to the Commonwealth of Pennsylvania for the endowment of Agricultural Colleges in this State.

Proposals for the purchase of this Land Scrip, addressed to "The Board of Commissioners of Agricultural Land Scrip," will be received at the Surveyor General's office, at Harrisburg, until 12 o'clock, M., on Wednesday, April 10, 1867.

This land may be located in any State or Territory, by the holders of the scrip, upon any of the unappropriated lands (except mineral lands) of the United States, which may be subject to sale at private entry. Each piece of scrip represents a quarter section of one hundred and sixty acres, is issued in blank, and will be transferable, without indorsement or formal assignment. The blank need not be filled until the scrip is presented for location and entry, when the party holding it can fill the blank and enter the land in his own name. No bids will be received for less than one quarter section.

The Scrip will be issued immediately on the payment of the money to the Surveyor General. On all bids for a less quantity than 40,000 acres, one-third of the purchase money must be paid within ten days, and the remaining two-thirds within thirty days after notification of the acceptance of the bid or bids by the Board of Commissioners.

CITY MATTERS.

PERSONAL.—Mayor McCarthy, who has been absent from the city for the past few days, returned yesterday and is again at his post.

REVIVAL SERVICES.—Special revival services under the direction of Rev. W. C. Steele, of Auburn, New York, will be continued at Liberty Street M. E. Church to-day and to-morrow. The services to-morrow will be of a most interesting character.

RAILROAD PHYSICIANS.—The Cleveland and Pittsburgh Railroad Company have appointed Drs. George McCook, George L. McCook and E. S. Umstaetter as physicians for their road at Pittsburgh.

OFFICERS ELECTED.—At the annual meeting of the Pittsburgh National Coal and Coke Company, held on Thursday, J. H. Demmler, Esq., was re-elected President, and R. A. Schuable, Esq., Superintendent.

REV. THOMAS X. ORR, of the Central Presbyterian church, corner of Anderson and Leacock streets, Allegheny, will preach a sermon to young men, under the auspices of the Young Men's Christian Association, to-morrow at three o'clock P. M. Subject—"The Young Man's Safety." Full attendance desired.

FIDELITY CHAPTER OF T. AND W.—At a meeting of Fidelity Chapter of Temperance and Wisdom, of Allegheny, the following officers were installed by the officers of the Grand Chapter: K., Wm. E. Holmes; Q., Sallie E. Hopkins; M., John Ramsey, Jr.; L. H., Annie Good; W., Wm. McGonnigle; L. H., Lizzie Ramsey; U., I. C. Gracey, L. M., Lizzie Ammon; T., J. B. Holmes; S. T., Abbie D. Brooks; R., John Hobson; L. R., Sue Reno; S., Peter Good; L. S., Lizzie Nixon; V. P., John Ramsey, Sr.

RETURNED TO THE CITY.—Dr. Walter Ure, of Allegheny, who has been in the East for some time past, making himself acquainted with the Homoeopathic system of medicine, returned a few days ago, and resumed the practice of his profession at his office, No. 35 Ohio street. Dr. Ure is a skillfull and competent physician, and having the benefit of a thorough knowledge of both the Allopathic and Homoeopathic systems, has decided to embrace Homoeopathy, and will practice in that system hereafter.

OIL WELL STEAM ENGINES.—As the season approaches for extending operations in the oil regions, there will be an increased demand for steam engines, and those manufactured by Mr. Wm. Fisher, of the Fifth ward, are peculiarly adapted for that work. Mr. Fisher is a practical machinist, and thoroughly understands how to get up engines of the best quality, and of any desired power. Parties desiring to purchase an engine of any class, made with the latest improvements, will find Mr. Fisher prompt to furnish it.

WHERE TO GET A GOOD MEAL.—Persons who desire a good meal, served up in excellent style, should pay a visit to the Continental Restaurant, on Fifth street, next door to the Postoffice. Although probably not as imposing in appearance as some other similar establishments, its larder is well filled, and the attention of Mr. Holtzheimer, the proprietor, and his numerous assistants, more than counterbalances for the want of ostentatious display. All the substantials and many of the delicacies of the season can be procured at short notice, both and day and evening. The bill of fare for to-day is unusually choice, and those who call at the Continental may rest assured that they will be well attended to.

REMAINS REMOVED.—The remains of David Campbell, who died from exposure in the lockup on Tuesday night, were removed from the Mayor's office yesterday morning, by a brother of the deceased, to Butler. Newton Campbell a son of the deceased, also called at the Mayor's office yesterday morning. He is engaged on a farm at McKeesport, and only heard of his father's death on Thursday night. Newton says that his father was subject to heart disease, on which ground he was discharged from the army, since which time he followed farm labor for a living. The deceased leaves a wife and six children, who reside two miles from Butler.

THEODORE TILTON AT STEUBENVILLE.—Our Steubenville correspondent, under date of 7th, writes: Theodore Tilton unfolded his theory of reconstruction in Kilgore Hall last evening. The elite of Steubenville were congregated there, and gazed upon the pictures held up before them with every indication of satisfaction. The Ohio Legislature was not suffered to remain unnoticed and unrecognized in the background. When exhibited in a strong light, as it was more than once during the lecture, and its past proceedings and present position clearly defined, some were astonished at the sorry figure it cut, and a voice in the back part of the hall cried out "shame." Mr. Tilton was the guest of Prof. and Mrs. Reid, at the Seminary, and by his sparkling wit, literary culture and genial companionship carried all hearts there by storm."

PRACTICABLE TEMPERANCE REFORM. — A commission appointed by the United States Brewers' Association, went abroad in 1865 for the purpose of examining the breweries of Europe, and also of generally investigating the tendency of the use of malt beverages. The report of the commission contains many valuable facts on these points, and the conclusion is irresistible that the use of beer and ale promotes general sobriety in those countries where it is a national beverage. Spirits are abandoned in proportion as malt liquors are encouraged and brought plentifully within the reach of all. There is reason in this. People will, it seems, have a stimulant, be it tobacco, ale or rum. Let the drink then be ale, and let whisky go out of fashion. Here in Pittsburgh we are beginning to revolutionize the public taste as to this matter, and that celebrated brewery established by Joshua Rhodes, and now carried on by Carson, Darlington & Co., is entitled to a great share of the public gratitude on this account.

Death of a Woman from Exposure.

Yesterday morning shortly after daybreak, some employees of the Union Brewery, located on Pennsylvania Avenue, in Pitt township, a short distance beyond the city line, discovered an aged woman in a dying condition, lying on the ground in a fence corner, near the Brewery. She was carried into the Brewery, and the Guardians of the Poor notified. Mr. Williams' Assistant Health Officer, started for the Brewery in a buggy, for the purpose of conveying the woman to Mercy Hospital, but before he arrived there, she died. Alderman McMasters, in the absence of the Coronor, was summoned, and held an inquest on the body at the brewery in the afternoon. Dr. Addison Arthurs made an examination of the body, but found no marks of violence. The jury returned a verdict of death from natural causes, produced by exposure. The deceased was apparently about fifty or sixty years of age, and considerably enfeebled by exposure. She wore a worn-out calico dress, in which was found but one cent. No papers whatever were found that would lead to the identity of the deceased.

Watch Springs Made from Pittsburgh Steel.

Some time ago, says the Cleveland *Leader*, we had occasion to notice the fact that the mammoth steel works of our fellow townsmen, Messrs. Anderson, Cook & Co., had been manufacturing steel for the purpose of making watch springs, an experiment which had never before been attempted in this country, or if so, of a very insignificant and unsuccessful nature. We now have the pleasure or rather the pride of informing our readers that the attempt to manufacture steel for the purpose indicated, has proved completely successful. Yesterday we were shown, by a gentleman from New York, a beautiful specimen of a watch spring manufactured from Anderson, Cook & Co.'s steel. The spring in question was submitted to the inspection of a number of our leading watchmakers, who all pronounced it the finest specimen of that kind they had ever seen. The New York Watch Spring Company are now ready to fill all orders for the American steel springs, and in the course of another year an imported watch spring will be a novelty. Pittsburgh will yet be the Birmingham of America in every sense of the word, and that by enterprising and energetic young business men. Stand from under, Mother England, your manufactures are waning in the hands of Young America, and especially so while you have to contend with the Pittsburgh firm of Anderson, Cook & Co. This firm also manufactures springs for wagons, carriages, etc., as well as steel plow points and horse rake teeth. Every stranger should visit these works when in Pittsburgh.

Prof. De Ham's Concert.

The concert given by Mr. De Ham, at the Academy of Music, Thursday evening, proved to be the highly artistic entertainment that was anticipated by all those who knew the skill of the Professor and the talent of his pupils. Seldom have we to speak of a concert that gave such eminent credit to the performers, and such satisfaction to the audience. Space forbids us to speak at length of the various performers and their pieces, but we must mention the names of Miss Canfield, Miss Shephard, Miss Somers, Miss Porter, Miss Scaife and Miss Addy, who in the several pieces they played, showed the highest musical talent, and evinced the excellence of the instruction they had received. The overtures to the Bronze Horse and "Wm. Tell," played on three pianos and three cabinet organs by nine of the Professor's best pupils, were rendered magnificently, bringing up many of those charming effects that we thought could only be heard from a full orchestra. Mr. De Ham was assisted by Mrs. Annie Sheib, who sang with true dramatic passion the grand aria from Trovatore, and with hearty gaiety the lively Ardita Valse; Miss Laura Reinhart, who won fresh laurels by her rendering of "Com e Bello," from Lucretia Borgia, and the charming German song, "Sleep Well, Sweet Angel," and Mr. Apfelbaum who sang in his accustomed good style, "The Tear," and "Oh! I have sighed to Rest Me." The large and fashionable audience was evidently delighted from the first to the last piece, to judge from the hearty applause that greeted almost every performance. To Mr. De Ham is due the thanks of the public for getting up such a concert, and if his reputation as a musician and teacher was not already well established in our city, this entertainment would establish it at once.

THE COURTS.

DISTRICT COURT.—Before Judge Williams.

The case of Joseph Crites vs. Samuel Hamilton was taken up yesterday morning. This was an action on a *scire facias* to revive a judgment. The jury rendered a verdict for plainiff in the sum of $848.

Union Iron Mill vs. Tionesta Oil and Barrel Manufacturing Company; action to recover $2,605 66, alleged to be due for hoop iron furnished defendants. The defendants contended that the quality of the iron was not such as was contracted for, and that there was a difference in the price asked. The jury found for the plaintiffs for the full amount of their claim, with interest.

A motion for a new trial was made in the case of H. B. Comer vs. J. D. Williams, and reasons filed therefor.

An order was issued by the Court directing the Prothonotary to make out a new trial list, to embrace all cases now on the issue docket, and such other cases as may be placed thereon before the 16th inst. This list will be taken up on the first Monday of April.

COURT OF COMMON PLEAS.—Before Judge Stowe.

A non-suit was entered in the case of Millingar & Bidwell vs. James B. Corey, and also in the case of George Sheffler vs. Patrick O'Hara.

There being no other cases ready for trial Court adjourned.

COURT OF QUARTER SESSIONS.—Before Judge Sterrett.

The jury in the case of John B. Dawson, indicted for forgery, being unable to agree, they were discharged by the Court and the prisoner remanded. In the report of this trial published yesterday, it was stated that Mr. J. K. Caldwell, upon whom the check had been passed, had testified that Dawson had admitted to him that the signature was forged. This was an error, the defendant having made no such admission.

John Lutz, arranged on a charge of compounding a felony, on oath of Mathew Keep, was acquitted by the jury, and the costs divided between the parties.

David E. Hall was next placed on trial for feloneous assault and battery. William J. Robinson, the prosecuting witness, testified that on the night of the 2d of June last, while in Felix Laverty's saloon, on Smithfield street, a fight occurred between Peter Delaney and George Hall, a brother of defendant. While the two men were on the floor, defendant went towards them, as though he was about to interfere, when Robinson caught hold of him. Hall then told him to go away or he would hurt him, and a few moments afterwards he (Robinson) discovered that he had been stabbed in the left breast, about two inches below the heart, inflicting a severe wound. He also stated that, as he had been drinking all day, he could not remember what had occurred, and did not know whether Hall had cut him or not. The jury retired about four o'clock, and after a short absence returned a verdict of not guilty.

POLICE INTELLIGENCE.

[Before Mayor Morrison.]

FEMALE PICKPOCKET ARRESTED.

Chief Long, of the Allegheny police, yesterday arrested a woman named Barbara Rahm, charged with picking the pocket of Mrs. Maria McCallum of her pocket-book containing five or six dollars. Mrs. McCallum, who resides in Manchester, visited the store of Arthur Kirk, on the corner of Federal street and North alley, yesterday morning, and made some purchases. When she was about paying for the articles, she discovered that her pocket-book was gone. She at once suspected Barbara Rahm, who was standing beside her, and noticing Chief Long passing, called him and had Barbara arrested. She denied the accusation, but upon being taken to the Mayor's office and searched, the stolen money was found in the sleeve of her dress. She had a hearing before Mayor Morrison, and was held in five hundred dollars bail for trial.

COMMITTED FOR TRIAL.

Dr. Louis Leasing, charged with obtaining two hundred and fifty-one dollars under false pretenses from David Ewart, of Brush Creek, had a final hearing yesterday afternoon, and was held in the sum of five hundred dollars bail for his appearance for trial. He failed to procure that amount, and was committed to jail.

GAVE BAIL.

James Brown, John Robinson, James Gamble and H. Foreman, charged with committing an outrage on Emma Logan, on Sunday morning last, entered the required bail yesterday for their appearance at Court, and were released from the lock-up.

[Before Alderman McMasters.]

ALLEGED ASSAULT WITH AN AXE.

Officers Hague and Wilmot yesterday afternoon arrested three men named John Shuke, George Link and Jacob Hannigan, charged with assault and battery with intent to kill, on oath of George Oxley. The parties are all residents of Lower St. Clair township. Shuke keeps a tavern in that township, and Link and Hannigan are boarders there. Oxley states that on the 19th of February he visited Shuke's tavern and after taking some drinks, went out into the yard, in the rear of the tavern. He was followed by the defendants, and Shuke, he alleges, picked up an axe and dealt him a severe blow on the head, cutting a large gash on his forehead. Link and Hannigan then beat him badly with a club, injuring him about the head. They then decamped, leaving him insensible on the ground. He was picked up shortly afterwards, and taken to his home, where he received medical aid. He was so seriously injured from the effects of the assault, that he was at one time in a very critical condition. He managed, however, to improve, and on Thursday last he came out of the house for the first time since the assault, when he made the information before Alderman McMasters. The accused were all held to bail for a hearing on Monday afternoon next.

ILLEGAL LIQUOR SELLING.

Mrs. Alice Oxley, husband of the above prosecutor, also made two informations against Shuke—one for selling liquor without license, and the other for selling liquor on Sunday, February 18th. Shuke gave bail for a hearing on Monday.

PAID THE DAMAGES.

Peter Dean was arrested yesterday on the charge of malicious mischief, in breaking a window in the store of Shields & Boucher, but the case was settled by Dean paying the damage and the costs in the case.

FALSE PRETENSES.

Will T. Wiley, jeweler on Wylie street, made an information against John Cridland, of East Liberty, for obtaining goods under false pretense. Mr. Wiley alleged that Mr. Cridland obtained from him, on the 8th of September last, a silver watch valued at twenty dollars, by representing that he had money coming to him from Mr. Barker, of East Liberty, when he in fact was indebted to that gentleman. Cridland was arrested, but paid over to Mr. Wiley the amount due him, also the costs in the case, and was discharged.

[Before Alderman Taylor.]

STOLEN GOODS RECOVERED.

Abraham Beaver, who resides on Sandy Creek, was arrested yesterday, charged with having in his possession a box of goods stolen from the depot of the Allegheny Valley Railroad Company, on complaint of Mr. Henry Blackstone. A search warrant was placed in the hands of officer Guth, who proceeded to Beaver's house, and obtained the stolen goods. The goods were returned to Mr. Blackstone, and the defendant discharged.

(Before Alderman Morrow.)

FORESTALLING THE MARKET.

A man named James Lofty was arrested yesterday, on complaint of officer Thomas, Market Constable, charged with forestalling the market, in having bought twenty-eight dozen of eggs from a countryman yesterday morning, and sold them to his sister, who keeps a store on Wylie street. He was fined twenty dollars and costs.

INTERFERING WITH AN OFFICER.

A man named James Hamilton was fined five dollars and costs for interfering with officer John P. Messner, Assistant Market Constable, in the discharge of his official duties.

ANOTHER HIGHWAY ROBBERY.

An elderly gentleman, residing on Washington street, while returning home on Thursday night about eleven o'clock, was attacked in front of the grain elevator, on Liberty street, by two men, who knocked him down, and robbed him of his pocket-book containing twenty dollars and ten cents in money, and some valuable papers. The robbers then decamped. The gentleman failed to recognize his assailants. Highway robberies in this locality are of no unusual occurrence now, but no efforts, it seems, are made by the police to bring the offenders to justice.

RELEASED.

Catharine Leeson, committed to jail on the 28th ult., by Alderman Lynch, for malicious mischief, on oath of Mary Hallihen, yesterday entered bail for her appearance at Court, and was released.

PROCESSES ISSUED.

The Court yesterday issued processes to tipstave Wm. Boston, for the arrest of James Williams, keeper of the Bowery Saloon, on Fifth street, and Felix Laverty, saloon keeper on Smithfield street, for illegal liquor selling. Neither of the accused have yet been arrested.

REWARD OFFERED.

Dr. Perchment offers a reward of five hundred dollars for the arrest and conviction of the burglars who robbed his house, in East Liberty, on Sunday morning last.

FIGHT AT CITY HALL.

A fight occurred on Thursday evening at City Hall, between a party of negroes, who were in attendance at the colored fair and festival, held at that place, during which one of the negroes was struck several times in the head with some blunt instrument, cutting him badly and severely injuring him.

HORSE STOLEN.

Early Thursday morning a horse was stolen from the stable of Mr. G. W. Cook, at Kittanning. The thief is supposed to have come in the direction of Pittsburgh. The horse is a bright bay, about sixteen and a half hands high, and has a heavy black mane and tail. A reward of one hundred dollars is offered for the arrest and connection of the thief. A liberal reward is also offered for the recovery of the horse.

A Livery Stable at Auction.

Mr. Wm. S. Jackson, proprietor of the extensive livery stable, on Fourth street, below Smithfield, being about to decline business, will offer his entire stock at public sale, commencing on Wednesday next, and continuing from day to day until it is disposed of. This sale will be the heaviest of the kind ever held west of the mountains, and that will attract the attention of the trade and other parties desirous of purchasing. The stock consists of ninety head of horses, among which are many pairs of matches, together with single driving and riding horses, twenty two-horse carriages, many of them nearly new, seven barouches, twenty-seven buggies, and the other numerous appurtenances of a first class livery stable. Mr. Jackson has always been celebrated for the excellence of his stock, and a lively contest may be anticipated for the ownership of some of his well kept animals and neat and serviceable vehicles. Mr. T. A. McClelland, the well-known auctioneer, will conduct the sale.

The Haymakers in Costume.

Week after next, (the precise day will be announced hereafter) we are to have a novel and rare entertainment at the Academy of Music, under the auspices of Miss Ernest. The heading above will suggest its character. The very choicest talent in Pittsburgh, both professional and amateur, will contribute. We only mention one name now, that of Miss Hattie Jones, whose remarkable powers will be made available on that occasion.

PRESENT STATE OF FENIANISM.—Senator A. L. Morrison, of St. Louis, Mo., one of the ablest members of the Fenian Senate, will deliver a lecture this evening, at City Hall, under the auspices of Pittsburgh Circle of the Fenian Brotherhood, on the present state of Fenianism. In view of the fact that there is an important movement of the Fenians now forming, and as Senator Morrison is well qualified to speak thereon, the lecture this evening will be of a very interesting character. Senator M. is an eloquent speaker, and a rare treat is anticipated in his lecture.

CONSUMPTION CURABLE BY A NEW TREATMENT AND THEORY.—The vile destroyer of the parent's hope, this fell monster, the devourer of mankind! There are thousands daily suffering from the early stages of this destroying malady, who could be thoroughly cured while in its infancy, by applying the proper remedies, who, if aware of the fatal results, would take immediate steps to check it in the bud.

Oh, how many thousands who are but slightly troubled with this irritation of the throat and air passages this day, will be mouldering in the silent dust before the expiration of twelve months, through gross carelessness on their part.

OUR MOTTO.

We use such Balsams as have no strife
With Nature or the Laws of Life;
With blood our hand we never stain,
Nor poison men to ease their pain.

Our Father, whom all goodness fills,
Provides the means to cure all ills;
The simple herbs beneath our feet,
Well used, relieve our pains complete.

A simple Herb, a simple Flower,
Culled from the dewy Lea—
These shall speak in touching power,
Of change and health to thee.

The Indian Herb Doctor will describe diseases, and tell his patients the nature of their complaints or illness, without receiving any information from them. No charge for consultation or advice. Office, 194 Liberty street.

Sworn to Before His Honor, the Mayor of Pittsburgh.

INDIAN HERB DOCTOR—Dear Sir: Supposing that others afflicted as I have been may be benefited by the knowledge and use of your medicines and treatment, I am induced to make the following statement: For a long time I have been afflicted with consumption, said to be in the last stage by many doctors. They all failed to cure me. I applied to the Indian Herb Doctor, of 194 Liberty street. My coughing, spitting blood, pain in the chest, are all gone. My voice is quite restored. I feel as strong as ever, and from having been reduced to a skeleton, I have gained twenty-one pounds since I commenced taking his medicine.

As I experienced so much benefit from the use of the Indian Herb Doctor's medicines, I feel as though I could not say enough in their favor, still I feel thankful to God, the author and preserver of my life, that he has guided me to the Indian Herb Doctor, who has cured me.

Public Amusements.

OPERA HOUSE.—Edwin Adams, on the occasion of his benefit last evening, had, as he deserved to have, a crowded and fashionable audience. To-night Mr. Adams will appear as "Charles de Moor," in "The Robbers." On Monday evening, his new play, "Clairvoyance," will be produced.

This afternoon, the beautiful spectacular play, "The Sea of Ice," will be produced.

GERMAN THEATER.—The distinguished tragedian, Mr. Otto Von Hoym, is now performing a second engagement at the Academy of Music, and pleasing large and appreciative audiences by his splendid performances. This evening he will appear as the hero in "Der Glockner von Notre Dame," supported by an admirable cast.

VARIETIES.—Johnny Hart, and the great olio, ballet and dramatic consolidation, will all appear this evening in a variety of excellent performances.

CHERRY AND FAIR STAR.—The complimentary benefit to Manager T. W. Myers, will take place this afternoon, at the Theater, when the beautiful spectacle, "Cherry and Fair Star," will be given. He deserves to be well remembered.

INVIGORATE THE RESPONSIBLE ORGAN.—The stomach is the responsible organ of the system. If the digestion is imperfect, every member, every gland, every muscle, every nerve and fibre is more or less out of order. All the fluids are depraved. The brain is clouded. The spirits are depressed. All dyspeptics know this to be the truth. It is not, however, half the truth. Columns would be required to enumerate the pains and penalties of dyspepsia, nor could any pen do them justice. Tens of thousands feel them; no man can describe them.

Can they be prevented? Can they be relieved? Can they be banished and forever? Unquestionably they can. No dyspeptic has ever taken Hostetter's Stomach Bitters in vain. Believe no one who says the complaint is incurable. This great vegetable stomachic will eradicate it—is eradicating it in thousands of cases over which medical practitioners have shaken their heads ominously, saying, "Nothing can be done."

The faculty has its fallacies. One of them is that indigestion is the most difficult of all the ordinary ailments of mankind to combat and subdue. This is a mistake. Nothing can be easier than to conquer it if the true specific be administered. This vegetable combination which has become famous throughout the civilized world as Hostetter's Stomach Bitters is an antidote to the disease which has never be en known to fail, and fortunately it is everywhere procurable. If you wish to "fool" with the dyspepsia, try the pharmacopoeia perscriptions. If you want to root it out and prevent its recurrence, take the Bitters daily. There is no discount on the testimony in its favor. If there is a man or woman who has ever tried it for indigestion without being benefitted, the fact has not transpired. Universal, uncontradicted praise avouches its wonderful tonic virtues.

FINANCE AND TRADE.

FRIDAY EVENING, March 8, 1867.

There is nothing new to report touching the local money market. The "pinch" which is now felt in discount circles cannot be of long duration. Confidence in the future is much stronger now than it was a fortnight ago. Spring trade already shows signs of reviving, and our wholesale houses are well prepared to serve their customers with good assortments in the different branches of merchandise.

—A New York correspondent of one of our Brokers writes under date of 6th inst: "There is little information of interest worth noting in the market. Stocks have suffered constant and quick fluctuations of 1 and 2 per cent. either way, during the past three days, so that it is impossible to tell ten minutes ahead how the market will go. This is owing to the fact that a number of the leading stocks are considerably oversold, so that whenever the shorts attempt to buy in, the market is quickly run up, upon a momentary pressure to buy.

"The excitement over the recent Bank defalcations is rather subsiding. Our own banks have been subjected to a searching examination on the part of their Directors during the past three days, and thus far everything has been found sound."

—Justice Leonard, of the Supreme Court of New York, has decided that United States legal tender notes are in law money, and as such liable to taxation.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, }
FRIDAY EVENING, March 8, 1867. }

There was only moderate business done to-day in the general markets. For the last few days there has not been as much done as there was one week ago. There is a sudden stagnation again in trade. Merchants cannot account for it. Flour is only moderately active, though holders are firm, and not inclined to lower prices in order to effect sales. Wheat is quiet. There is more demand for oats, and prices are a shade higher. There is no barley in the market, and in demand at 95c@$1 00 ₩ bushel. Eggs are a trifle higher. Choice butter is in demand, but there is very little of that quality in the market. There is nothing doing in iron. Bacon and lard are firm and considerable transactions are occurring. There is very little doing in whisky. We condense from our latest exchanges the following:

PHILADELPHIA.

The *American*, of Thursday, says:

Groceries—Coffee continues scarce, and we hear of no sales worthy of notice. In sugar there is very little doing, but prices are well maintained; about 200 hhds of Cuba sold at from 11@11½c ₩ lb currency, for fair groceries.

Flour—The market, as we have noticed for some time past, continues very dull, but prices are without any material change; about 600 bbls sold in lots to the retailers and bakers at prices ranging from $8@8 75 for superfine; $9@10 25 for extra; $10 50@12 50 for low grado and fancy Northwest extra family; $12@12 50 for Pennsylvania and Ohio family, and $14@16 50 ₩ bbl. for fancy brands, according to quality. Rye Flour sells in a small way at $7@7 25 ₩ bbl.

Grain—Prime wheat continues scarce and in fair demand at full prices; but other descriptions are dull and neglected. 3,000 bush Pennsylvania red sold at $2 60@3 05; small lots of Southern do at $3@3 15; California white at $3 15@3 20, and 1,000 bush on private terms. Rye sells at $1 33 ₩ bush for Pennsylvania and western. Corn is scarce and in fair demand; 6,000 bush new yellow sold at 98c in store and from the cars; and $1 afloat, including a small lot of white at 97c ₩ bush. Oats are scarce and in good demand at an advance; 2,000 bush Pennsylvania sold at 60@62c ₩ bush.

Seeds—In cloverseed there is less doing; 400 bush sold at $7 50@8 50 ₩ bush for good to prime old and new. Timothy sells at $3 50@3 62, and flaxseed at $3 20 ₩ bush.

LOUISVILLE TOBACCO MARKET.

There is a fair demand for all desirable grades at full rates, says the *Journal*. Shipping leaf is active. Sales of reviews have been at better prices for some descriptions. The offerings were 165 hhds with 9 rejections. Sales include 3 hhds at $2 75@2 90; 27 at $3 @3 90; 12 at $4@4 80; 11 at $5@5 75; 9 at $6@6 90; 9 at $7@7 90; 15 at $8@8 85; 16 at $9@9 95; 28 at $10@10 95; 10 at $11@11 75; 9 at $12@12 75; 3 at $13@13 75; 4 at $14@14 75; 5 at $17@15 50; 2 at $16 25@16 50, and 1 at $18 50.

Returns from quite a number of points are yet lacking this year. These returned last year a total of 78,763 hogs—or, from points in Ohio from which no return have been received, 35,503; from Illinois, 11,280; Indiana, 1,980. Supposing them to have packed an increase proportionate to that reported from other points in the same State, they would have packed, in Ohio, 46,989; in Illinois, 14,495; in Indiana 3,667—a total of 65,151 hogs, which added to the total already obtained, makes this year's packing amount to a total of 2,347,478 hogs, or an increase over last year of 632,890 hogs. From the above, taken as the packing of the country at large, should be deducted 400,000—returns from the Atlantic cities, showing that decrease in their packing this season—which would leave 1,497,478 as the total number cut this season, an increase of 233,899 over the previous season.

GRAIN IN MINNESOTA.

As Wisconsin and Northern Iowa are well intersected by railroads, says the circular of Wm. Young & Co., Milwaukee, February 28, 1867, there are but few points there at which grain accumulates to any great extent. It is different, however, in Minnesota, and as the bulk of our receipts are from that State, the comparative accumulations there are more of an index to position of the Northwest in regard to the wheat supply. According to replies, the comparative accumulations at some of the more important points on the first of April last year will compare with the stocks they will hold at the corresponding date this year, as follows:

	April 1, '66.	April 1, '67.
Hastings	550,000	20,000
Red Wing	300,000	100,000
Winona	250,000	90,000
Brownsville	50,000	15,000
Minneiska	130,000	40,000
Lake City	200,000	40,000
Wabashaw	90,000	15,000
Prescott	30,000	2,000
St. Paul	60,000	None.
	1,660,000	342,000

Showing a deficiency at the above points alone of 1,318,000 bush. We would also call attention to the report of our correspondents at Shakopee, we estimate that the Minnesota valley, which in 1865 yielded 1,500,000 bush, did not last year produce more than 150,000 bush.

CROPS IN INDIANA.

A gentleman, who has traveled extensively over Warrick and adjoining counties in Indiana, says the prospects for a heavy wheat crop never looked more encouraging at this season of the year. The prospect for a fine fruit crop is also good. He has examined the tender buds of the apples and peach trees, and gives it as his opinion that they are uninjured by the recent severe frosts.

THE CENTAL SYSTEM—HOW IT WORKS IN MILWAUKEE.

The Milwaukee *Sentinel* says:

The cental system of buying and selling grain, which went into effect here March 1st, is gradually but surely gaining favor with our commission men. The elevators have promptly adopted the new system, and now make their reports to the Chamber of Commerce on the cental basis, and issue receipts to holders of grain stored with them for so many centals, instead of bushels, as heretofore. But we regret to notice a disposition on the part of some operators on 'Change, to adhere to the old system and violently oppose the introduction and practical working of the new cental system.

This opposition of a small minority culminated at the noon Board on Saturday, when an influential member of the old or bushel system, (in consideration of his previous good character we do not mention his name) took the floor and made a motion to the effect that the Chamber of Commerce return to the old system, and indefinitely postpone the introduction of the cental. The resolution was promptly laid on the table by the vote of an overwhelming majority. The advantages of the new system introduced are so obvious, that both dealers and producers, as soon as they become familiar with it, must greatly prefer it over the old one.

The receipts per railroad and river since our last were as follows: Flour, 1582 bbls; apples, 147 bbls; corn, 852 sacks; barley, 893 sacks; rye 1239 sacks; oats, 827 sacks; butter, 39 packages, and fish 1244 hf bbls.

We quote as follows, which are the wholesale prices unless otherwise stated:

APPLES—There is a fair demand whilst at the same time the receipts continue good. We quote inferior apples nominal at $2 00, and upwards, per bbl, and choice at $4 00@4 25.

BEANS—Choice white beans are selling at $2 50@2 75, and navy $3 per bush.

BUTTER—There is but little choice butter in the market, and it is in demand at 25@30c ₩ lb. There is a large supply of low grades of butter in store, a large portion of which is hardly saleable at any price.

DRIED FRUITS—Prices of apples are from 8½@10c ₩ lb from store, and a dull market. Peaches of a good quality are selling at 18@20c ₩ lb, though sales were made at lower figures.

EGGS—We have no change to note in the market. There is still a sufficient amount in store to meet the demand, which is quite active. We quote prices nominally 19@22c ₩ dozen, generally at the latter figure. Sales of 12 bbls at 21@22c reported.

FLOUR.—The demand for flour is somewhat less than it has been for some time back. Holders, however, are firm at the following quotations: Spring, common, $11 00@11 25; good $11 75 and choice $12 00@12 25; winter, good, $13 25; prime, $14 00@$14 50, and fancy, $15@16 ₩ bbl. Rye flour is selling in a small way at $7 00@7 25 ₩ bbl, and buckwheat flour at $3 50 @3 75 ₩ cwt.

GRAIN.—We have no change to note in wheat. We quote the market firm at $2 80@2 85 for winter and $2 60 for No. 1 spring. There is an advance on oats; sales of two cars at the depot at 50c ₩ bushel, and one car to arrive at 50c, reported. We note sales of shelled corn at 68c ₩ bushel. Sales of 1,700 bushels rye at $1 29 ₩ bushel, and five cars Pennsylvania at $1 30 ₩ bushel, reported. We note a firm market for barley, at 85@95c for spring, and fall at 95c@$1 10 ₩ bushel.

POTATOES—We note sales of P. B. Potatoes at $2 25 per bbl. Market very dull. Sales reported of 40 bbls at this quotation.

ONIONS—We quote prices $1 25 per bush and $3 25 per bbl.

PROVISINS—We quote the prices from first hands as follows: S. C. Hams, 15c; Shoulders, 10c; Sides ribbed, 11½@12c; Sides clear, 13c; Dried Beef, 20c; Lard, 12½@13c; Breakfast Bacon, 15c, and Beef Tongues, $10 50 per dozen. The market is active. We note sales country Bacon as follows: 2,000 lbs clear Sides at 11c; 700 lbs Hams at 13c, and 2,000 lbs Shoulders at 9¾c ₩ lb.

LARD OIL—We quote manufacturers' prices at $1 10 per gallon for No. 1 and 90c for No. 2.

BARRELS—We note sales of 251 oil barrels, 45 gallons in size, on the wharf, at $2 25 per barrel. Sales were also made at $2 30 for full size 45 gal bbls, with privilege of rejection if not prime.

HAY—We note sales of 1 car on the track at $20; 2 at $22 50, and 1 at $21 per ton.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, }
SATURDAY, March 9, 1867. }

Business so far as relates to oil remains very dull. The demand has fallen off and sellers had to make further concessions in order to effect sales. The receipts by river and rail since our last reached 2,896 bbls. The supply exceeds the demand, both here and in the Eastern cities. The sales of crude were in lots for present and future delivery, and reached 4,209 bbls, as follows: 500 bbls bulk at 6½c; 2,000 bbls, seller's option, deliverable at any time during 1867, at 5¾c ₩ gallon; 1,600 bbls bulk on the spot at 5¾c, light oil: 500 bbls do 41 gravity at 6½c: 100 bbls, 40@45 gravity, barrels returned, 7c, and 109 bbls of inferior at a low figure.

TAR—Was unchanged. We note sales of 50 bbls at $2 25 ₩ bbl.

REFINED OIL—The market continues very dull. The only sale reported was 1,000 bbls bonded standard white, Philadelphia, April, at 27c. Dispatches from Philadelphia report a very dull market, with a wide difference between the views of buyers and sellers, and a supply on hand far in excess of the wants of the market. Free oil don't seem to be wanted. Prices rule low, sales being confined to small lots to meet the wants of the city trade.

WEEKLY REVIEW OF THE PIG IRON AND BLOOM MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, }
SATURDAY, March 9, 1867. }

The Iron Mills of the city generally continue idle. Transactions in crude iron are extremely limited. Sales of the week were scarcely sufficient to indicate prices, nor will there be any activity till a resumption of consumption is definitely determined on by mill proprietors, of which there is no indication at present writing.

We have again to report additional sales aggregating 600 tons of muck bar from the Eastern part of this State at $76 per ton, which is said to be less than it could be manufactured at in this city.
